Details:

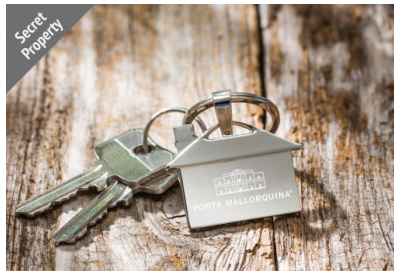

This beautiful detached house is situated in an exclusive location in Deià. It stands above the sea on top of a small cliff and has direct sea access, making it unique in this area. The property is in a privileged enclave with its own private access shared with very few neighbours.

Built in the late 70's on a small plain the house offers natural-stone facades, exposed wooden beams, terracotta floors and a garden with pool, all surrounded by breathtaking sea views. Further features include oil-fired central heating, fiber-optic internet, and mains electricity and water. It is accessed via an entrance courtyard with arch and stands on a plot with mature olive trees.

A valid touristic rental licence makes it both ideal as an investment object as well as a private residence. The location, however, is its greatest value factor and offers a unique living experience which would be very difficult to find on the market at present.

Location & surrounding area:

The picturesque village of Deià on the north-west coast of Mallorca is one of the most beautiful villages in Mallorca, with views of the Mediterranean and the Tramuntana mountains which were declared by the UNESCO as a world heritage in 2010. It is considered to be the natural landscape with the largest scenic and cultural values on the island.

A stroll through Deià means walking along lanes paved in the middle ages, past old stone houses with their multi-coloured window blinds. Fruit trees, stone-oaks, palm trees and cypresses characterise the wonderful surroundings.

The tranquillity and privileged scenery has attracted artists, musicians and authors since the 19th century.
