Details:

We would like to present to you the new residential complex 'Es Voltor', an interesting construction project consisting of 13 2-storey terraced houses which combine an authentic Mallorcan style with today's modern living comfort. Constructed according to the newest European building-quality norms they include the maximum degree of sound and thermal insulation.

Each house profits from a carefully-designed room distribution with 3 bedrooms, 2 bathrooms, one of which is en suite, and a guest WC, presenting an ideal and practical living space for the whole family.

From a spacious living/dining area with access to a lovely terrace, to a fitted kitchen fully-equipped with Siemens appliances, every detail has been planned in order to offer you a comfortable and functional home.

Enjoy the panoramic views of the mountains and the green, natural countryside surrounding the houses whilst relaxing on the large, south-west orientated terrace. Or enjoy sunny days in the private garden from where there is access to the communal area with refreshing pool and well-kept garden.

In 'Es Voltor' great importance has been attached to high-quality fittings and equipment, from elegant fixtures from Tres in the bathrooms to large-format porcelain tiles by Saloni. All have been carefully chosen to guarantee a maximum level of comfort and satisfaction.

Added to that underfloor heating in all rooms assures pleasant temperatures all year round, and a private parking space with direct access to the house makes daily life even more practical.

Come and discover the tranquillity and beauty of life in the Tramuntana with 'Es Voltor'.

Location & surrounding area:

Esporles is situated in the mountains of the Tramuntana and has about 4.000 inhabitants, not far away from Palma, Valldemosa and Banyalbufar on the west coast. In earlier times the textile industry was an important element of the economy, today it is more agriculture and stock-farming and of course tourism. A walk through the village is always worthwhile.
